RE: GameCube Temporary Test Disc

Here is the test disc you've been waiting for! Keep in mind this is only a temporary test disc; we will ship the permanent version to you when it's completed. This disc is identical to the discs we use in our interactive displays that you've seen and played at your local retailers. This disc will allow you to quickly determine if the deck or components are defective. When the disc arrives, it will come with instructions on how to test GameCube. I shipped the disc to you (2nd day air) on 12/14/01 so you'll be up and running soon. If you have any questions or your disc did not arrive, please give me a call and I'll make sure another one is immediately shipped to you.
